# Hallisoft RezEasy® Portal

Online reservation portal that accepts hotels, motels, hostels, guesthouses, bed and breakfast accommodation:

RezEasy Reservation Portal is a complete package that allows travel and booking agents to offer an online reservation system to hotels, motels, villas and holiday apartments. The design of the template pages, setup, installation and testing is carried out by Hallisoft as part of the cost of RezEasy Portal. You can determine how to run the portal and what to charge each property owner. There is no commission or monthly fee to pay to Hallisoft - just the initial cost of the software. Therefore, all the income generated by the portal is yours.

Once installed RezEasy Portal allows you to offer online booking directly from your website. The individual property owners enter their own data, manage their own rates, upload pictures etc. You decide how the property owners pay for this service and you take 100% of any fees that they pay.

These fees can be in the form of a percentage of the cost of each booking, a flat fee, or a combination of both. A percentage charge can easily be added in the form of a mark up to any rates entered by property owners. This way the owners know that they will receive the rates that they enter into your portal.

With RezEasy Portal you are in control and can make decisions that are based on the needs of your clients and your business strategy and future expansion.

## How it Works

**Sign Up:** Property owners visit your site and sign up for your reservation portal. You set the fee that each property owner pays and the terms and conditions of the contract. Payment can either be an annual fee or a percentage of each booking cost.

**Acceptance:** The property owner receives (by email) a User ID and password to access the portal. This can either be automatic, subject to your approval, or subject to a fee being paid.

**Property Owner Input:** The property owner enters details about their property online via a web browser. Details include description, facilities, rooms rates, charging structure etc.

**Import:** You receive an email informing you that the property details have been entered. This data is imported into RezEasy's publisher. You can review and edit the data if you wish. RezEasy then publishes the pages for the new property.

**Upload:** After RezEasy has published the pages for the new property you upload them to your web site. The property is now live and available for guests to book over the Internet.

## Features

- Includes setup, installation and creation of template set to match your existing web site. RezEasy Portal is delivered as a full working package.
- Property owners sign up and enter all data online. All you need to do is review the data and publish their pages
- RezEasy inserts data entered by the property owner into the published pages. You do not have to create or edit any HTML pages, programs or configuration files.
- Pre-configured to connect to 29 secure payment systems including our own Transaction Manager. A custom setting allows many more payment systems to be used.
- Fully integrated with our property management system (PMS) RezEasy Front Desk.
- The system supports more than 9,999 individual properties (more can be added if necessary).
- You can allow individual property owners to view reports for their property and/or change prices etc. You can also deny or restrict access.
- Search by any combination of area, place, price, class and facilities.
- Search for last minute deals. Ideal if you are using the 365 Day Rate to manage your yield.
- Choice of database for your website, either RezEasy's built in database or MySQL.
- Allow travel agents or corporate clients to login to your site and receive a discount (you can specify a different discount for each agent/corporate client).
- Create and manage promotional codes.
- Easily customize text and messages output by RezEasy or change them to your own language. There is no editing of program files or code required.

### Property Owners can:

- Select from 5 different types of rates:
  - Seasonal - with up to 52 seasons per year
  - Daily - with up to 4 blocks of days per week
  - Flexi-Rate - a combination of seasonal and daily rates (up to 52 seasons with 2 block of days per week)
  - Day/Week/Month - with rates per day, per week and per month;
  - 365 Day - specify a different rate for each day of the year;
- Charge per room or per person according to the rate type:
  - Per Room: Seasonal, Daily, Flexi-Rate, Day/Week/Month and 365 Day rates
  - Per Person: Seasonal, Daily and Flexi-Rate
- When charging per person you can specify different rates for up to 5 persons per room plus a child price (additional adults above 5 will be charged at the same rate as children);
- Have different prices for the current year and the next year;
- Specify up to 99 different room types (there is no limit on the number of rooms for each room type);

# Hallisoft RezEasy® Portal

- Specify minimum & maximum number of occupants (adults and/or children) per room;
- Specify minimum & maximum number of nights that can be booked;
- Specify lead time for bookings;
- Specify dates when rooms cannot be booked;
- Specify an overbooking allowance for each room type;
- Include options and/or extras (meals, airport pickup, tours etc.) on the booking form. RezEasy includes the cost of any options and extras selected by the guest in the calculated total. Options and extras can be priced:
  - per person per night
  - per room per night
  - per person per booking
  - per booking
- Update room availability, prices, seasons and other information over the Internet.
- Block periods of the year when you don't accept reservations;
- View reports and sales analysis figures using a web browser or download data into a spreadsheet.
- View guests due to check in between specified dates, guest contact information and inventory reports.
- Easily add reservation taken from outside RezEasy (by telephone etc.) so availability is always up to date.

## **You can also:**

- Use any currency for your prices, RezEasy includes full currency formatting;
- Define up to 3 different tax rates and specify which rate applies to which item;
- Apply a discount after a predetermined length of stay;
- Use any language for your site, all text output by RezEasy can be configured;
- Select the date format used by RezEasy to display dates (dd-mm-yyyy or mm-dd-yyyy);
- Select the style for arrival and departure date boxes (popup calendar or drop down list);
- Collect additional data by adding extra fields to the checkout (booking confirmation) form;
- Tell RezEasy to get the name of each guest included in the booking and the ages of each child;
- Tell RezEasy to take a deposit at the time of booking or if arrival is within a certain period take the full amount (online payments require an account with a payment gateway)
- Give customer the option to pay online or by post/bank draft/on arrival. (Online payments require an account with a payment gateway)

## **Multi-Languages**

We have a Multi-Language version of RezEasy Portal that allows you to have up to 5 different languages for the public (online reservations) portion of the portal. The administration is in a single language (English). However, if you wish you can translate the administration pages.

# Hallisoft RezEasy® Portal

Currently the languages available are English, Spanish, French, Italian, Portuguese, German, Dutch, Polish, Swedish. We can also deliver the portal in other languages if you supply the translations. All the text and templates can be changed at any time of course. Therefore, you have the ability to use any 5 languages of your choice.
